

## May Baskets

*On May Day, children can make May baskets to share with friends and neighbors. Small and simple to create, these May baskets can be filled with a few posies or treats. Traditionally, givers of May baskets left them on the doorstep of a special friend, knocked on the door, and then fled. If the recipient caught the fleeing giver, they were to share a kiss!*

### Materials:

*6" paper lace doilies*

*Ribbons, stickers, or other miscellaneous trims*

*Stapler*

*Flowers or other goodies to fill baskets*

*Cut a pie-shaped piece out of each doily, and then roll up the rest of the doily to form a cone. Staple together. Staple a ribbon handle to each side of cone, then decorate basket with stickers, ribbon, or other trimmings. Fill with flowers or other small trinkets or treats.*
