As President and Executive Director of the Bucks County Historical Society (BCHS), I want to express my sincerest gratitude to all who have spoken out in support of our organization's recommended next steps for the Moravian Pottery and Tile Works.

Given the results of the County Commissioners' vote to proceed on a different path, BCHS is honored to continue its commitment to preserve not only Henry Mercer's legacy, but our shared sense of local and regional history for this wonderful community. Our board and staff celebrate the projects we've achieved across the Mercer Mile, with the community by our side.

We remain devoted to educate, engage, inspire, and connect audiences through the stories of the past that help us find meanings relevant to our lives—both today and in the future.

With my heartfelt gratitude,
