About the Mercer Museum & Fonthill Castle

Located in Doylestown, Bucks County, PA, the Mercer Museum and Fonthill Castle are historic castles celebrating the legacy of Henry Chapman Mercer (1856-1930), American archaeologist, anthropologist, ceramicist and scholar. Both sites are operated by the Bucks County Historical Society (BCHS).

The Mercer Museum, one of Bucks County's premier cultural attractions and a Smithsonian affiliate, features both local and national seasonal exhibits as well as a core museum collection of over 17,000 pre-Industrial tools. This permanent collection offers visitors a unique window into pre-Industrial America through sixty different crafts and trades and is one of the world's most comprehensive portraits of American material culture. The museum also features a research library that is a center for local history related to Bucks County and the surrounding region, with its roots dating back to the founding of the Bucks County Historical Society in 1880.

Fonthill Castle was built between 1908-1912 and was the home of Henry Chapman Mercer. Mercer built Fonthill Castle as his residence and showplace for his collection of tiles and prints. The castle serves as an early example of reinforced concrete and features forty-four rooms, over two hundred windows, and eighteen fireplaces. Fonthill Castle's interior features Mercer's renowned, hand-crafted ceramic tiles designed at the height of the Arts and Crafts movement.

The Mercer Museum is located at 84 South Pine Street, Doylestown, PA, 18901. Fonthill Castle is located at 525 East Court Street in Doylestown, PA, 18901.
